

ETFGI reports assets invested in Environmental, Social, and Governance (ESG) ETFs and ETPs listed globally reached a new record of US\$82 billion at the end of May 2020

LONDON — June 25, 2020 — ETFGI, a leading independent research and consultancy firm covering trends in the global ETFs/ETPs ecosystem, reported today that Environmental, Social, and Governance (ESG) ETFs and ETPs listed globally gathered net inflows of US\$4.33 billion during May, bringing year-to-date net inflows to US\$28.53 billion which is significantly more than the US\$7.19 billion gathered at this point last year. Total assets invested in ESG ETFs and ETPs increased by 10.4% from US\$74.03 billion at the end of April 2020 to reach a new record of US\$82 billion at the end of May, according to ETFGI's May 2020 ETF and ETP ESG industry landscape insights report, an annual paid-for research subscription service. (All dollar values in USD unless otherwise noted.)

Highlights

- **Assets invested in ESG ETFs and ETPs listed globally reached a new record of \$82 Bn.**
- **YTD through end of May, ETF/ETP listed globally gathered a record level of net inflows of \$28.53 Bn**
